3CHI

ABOUT US

3CHI was founded by a biochemist with 15 years of product formulation experience after he witnessed the healing powers of CBD and THC firsthand. Since then, he and this company have focused on cannabinoid research, particularly minor cannabinoids, in an effort to create the purest and most effective products on the market.

After developing a new way to make a pure version of Delta 8 THC from hemp in late 2019, 3CHI was able to offer the USA's first federally legal THC-dominant product since cannabis prohibition started.

From that point on, we have been the leading Delta 8THC distributor in the United States, offering a range of THC and CBD products for all of your recreational and medicinal needs.

3CHI'S MISSION

We exist to help as many people as possible become the happiest and healthiest version of themselves. We use custom-engineered cannabinoid blends and the latest technology to lead the industry in providing the most advanced and effective products.

TESTIMONIALS

"The only thing that I can say is thank you! For over ten years I have been dealing with depression. In January, I slipped into a severe depressive state due to an injury I sustained. My father gave me your product and it has changed me back to the old me. Not only is the pain due to my injury minimal with your product, I feel young again and I'm able to move through the day without a heavy cloud over me. Thank you so much! Your product saved my life!!!"

Michelle E. / Delta 8 THC Vape Cartridge

"Great product. It nearly stopped my neuropathic pain in my hands and feet. Great alternative to Delta 9. 1-2 puffs four times per day is perfect. Dropped my anxiety almost completely. Sleeping through the night comfortably, been 15 years since I felt normal. Thank you for creating such a great product, I wish for great success for you and your company."

Paul D. | Delta 8 THC Vape Cartridge

"This stuff is the bomb. It takes a while for it to set in but it is worth the wait. Very relaxing, really melts away body aches, joint soreness. Even helps with Restless Legs that I've struggled with for years. I've found my sweet spot for time of night and amount and I have slept better than I can remember for a long time. Will definitely keep this stocked up."

Deron | Delta 8 THC Tincture

"This is amazing. I don't like to use delta 9 because it just makes me feel out of control but I also don't love CBD even with a little bit of the delta 9. THIS though – WOW, WOW, WOW! The anxiolytic effects are amazing and if you do struggle with appetite this will definitely help as well. I ordered one I knew was more of an Indica and it definitely felt like it. I really think this is a product that can make a HUGE difference in the lives of anyone who has chronic anxiety that causes mild depression. I know it is working for me! If you have the mind to do it I would go ahead and order the full 1 ml cartridge. I used it all up pretty fast when I ordered the 0.5 ml."

Adrienne / Delta 8 THC Vape Cartridge

"Incredible products and excellent customer service so you can't go wrong with 3Chi. I suffer from PTSD and a motorcycle accident and the cartridge Incredible Hulk did exactly what it said it would do. I felt like Hulk."

Larry | Delta 8 THC Vape Cartridge

"It is an incredibly effective method of managing my anxiety and alleviating stress and has succeeded where CBD has failed. It is a shame that Delta 8 is currently being demonized as it has helped countless individuals."
